

- 1 The people in the picture all belong to the same family. Who do you think they are? Make sentences.

mother father
son daughter
brother sister
husband wife
parents grandparents

EXAMPLE: I think Jessica is Peter's sister.

- 2  Read the conversation and try to guess the ending. Then listen and check.

LISA: Who are all these people, Molly?
MOLLY: They're my family: my parents, my grandparents, my brothers and my sister.
LISA: Which one is your sister?
MOLLY: This one. Her name's Jessica.
LISA: How many brothers have you got?
MOLLY: Two.
LISA: What are their names?
MOLLY: Harry and Peter. That's Harry and that's Peter. He's my twin brother.
LISA: Why aren't you in the photo?
MOLLY: Because ... !

- 3 Answer the questions.

EXAMPLE: How many brothers and sisters has Molly got?

She's got three.

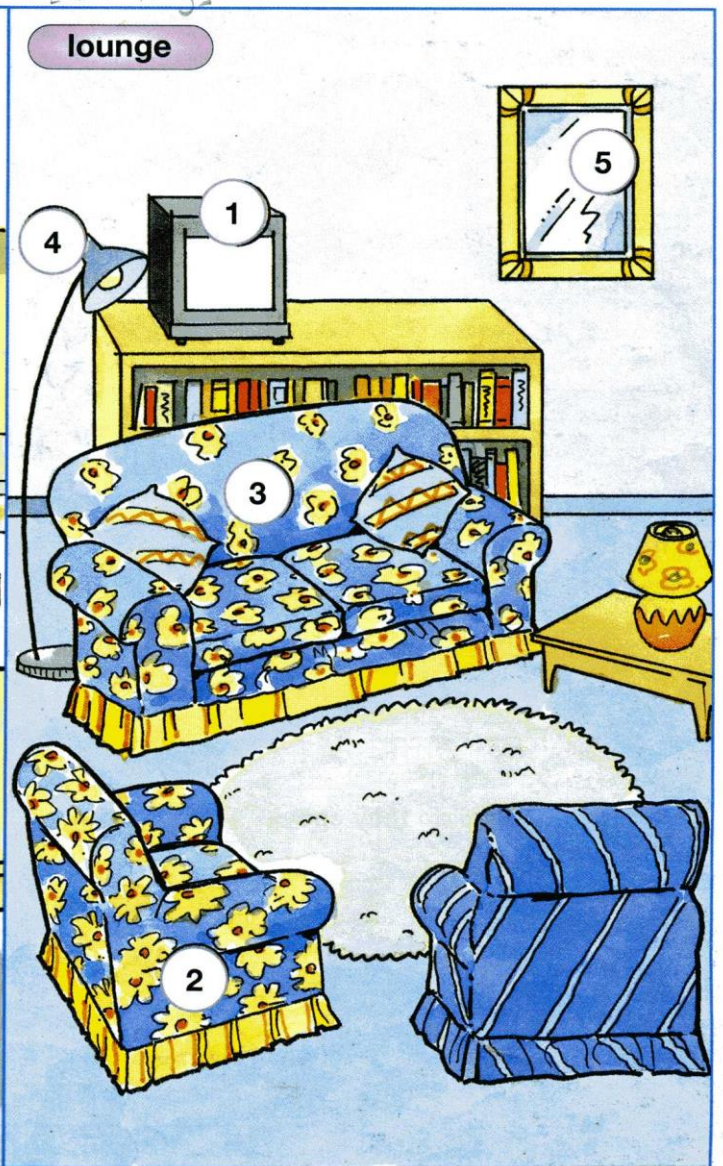

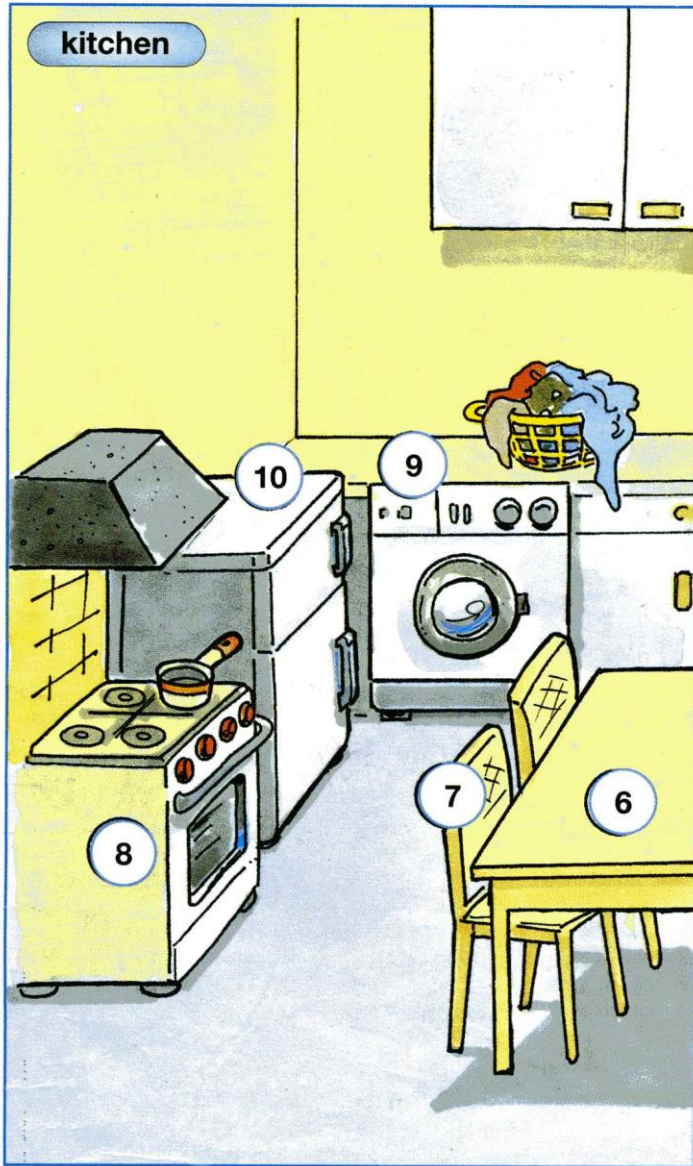

- 1 How many brothers has she got?
- 2 What are their names?
- 3 How many sisters has she got?
- 4 What's her name?

• REVISION •

How many brothers and sisters has she got?
What's his name?
her
What are their names?

- 4  Work in pairs. Show a photograph of people in your family to your partner. (If you haven't got a photo, draw a picture.) Ask and answer questions about the people.

5 Look at the picture of the apartment. How many items can you name? Say what you know, then check on page 11.

EXAMPLE: Number 1 is a television.
Number 2 is an armchair.

6 One item in these lists is in the wrong room. Which is the odd one out?

1 lounge: armchair sofa washing machine lamp

2 kitchen: table cooker television chair

Can you name any other pieces of furniture in the picture?

7 Tick (✓) the items in your room.

bed wardrobe sofa mirror cooker chair
dressing table washing machine armchair
lamp television

8 Write two sentences about your room.

EXAMPLE: In my room, I've got a bed, a wardrobe and ...
I haven't got a cooker, a sofa or ...

• REVISION •
