

I'd like you to imagine that you are responsible for putting together a first aid kit for your local youth club. Here are some things you might want to include.

doctor 695949
hospital 474585
chemist 4838385
health centre 483828

I'd like you to talk to each other and discuss how useful these things are in a first aid kit. Then, I'd like you to decide which two things you would not include in the first aid kit for the youth club. Remember, you have about three minutes for this.
